Pedro E. Diaz High School
2012 - 2016

ELEMENTARY
Sucat Annex Elementary School
2006 - 2012

SKILLS

- Html
- Css
- JavaScript
- PHP, MySQL
- Git & GitHub
- Flutter
- JavaFX & Java (basic OOP)

EXPERIENCE

WEB DEVELOPMENT

From 2022 to 2025 | Freelance / Academic Project-Based

Developed websites for various clients as part of academic projects and freelance work. Focused on front-end development using HTML, CSS, and JavaScript, delivering user-friendly and responsive designs tailored to each project's specific requirements.

PHP & MySQL WEB DEVELOPMENT

From 2022 to 2025 | Freelance / Academic Project-Based

Developed simple web applications using PHP and MySQL, incorporating form submissions with secure database storage. Utilized XAMPP and phpMyAdmin to build and manage functional back-end systems for academic and client-based projects, focusing on structured data handling and fundamental CRUD operations.

DESKTOP APPLICATION DEVELOPER

From 2023 to 2025 | Freelance / Academic Project-Based

Created simple desktop applications using Java with basic object-oriented programming (OOP), JavaFX, and SceneBuilder. Developed user interfaces and implemented core functionalities suitable for school or personal projects.

FLUTTER MOBILE DEVELOPMENT

From 2023 to 2024 | Academic Project Based

Developed a simple mobile application using Flutter and Dart in Android Studio as a final project for our Object-Oriented Programming (OOP) subject during the 2nd semester. Applied basic OOP principles and UI building techniques to create a functional Android app.
